

The EdensBay Vision: Funding Our Shared Future

An Employee-Owned Trust & Community Capital Ecosystem

A Blueprint for Shared Prosperity and Regenerative Growth

The EdensBay Alternative: Prosperism

We are establishing a living economic system designed for continuity, contribution, and shared prosperity. EdensBay is an Employee-Owned Community Capital Trust Company (EEOT-CCC).

3. Generational Longevity

A legal framework that ensures enterprises remain accountable to the people and communities that sustain them.

**Employee-Owned
Community Capital
Company**

2. Labor & Creativity Centered

Those who make the marketplace run are the beneficiaries of its success.

1. Value Held in Trust

We exist to hold value rather than extract it. The business cannot be subject to a predatory corporate buyout.

Governance

Board of Directors dictates

Member Proposal Enactment Governance (PEG™)

Longevity

Subject to hostile takeovers

Legally protected for generational continuity

The Problem with the Present

Traditional economic models separate ownership from responsibility, profit from purpose, and growth from care.

Consumer Spending

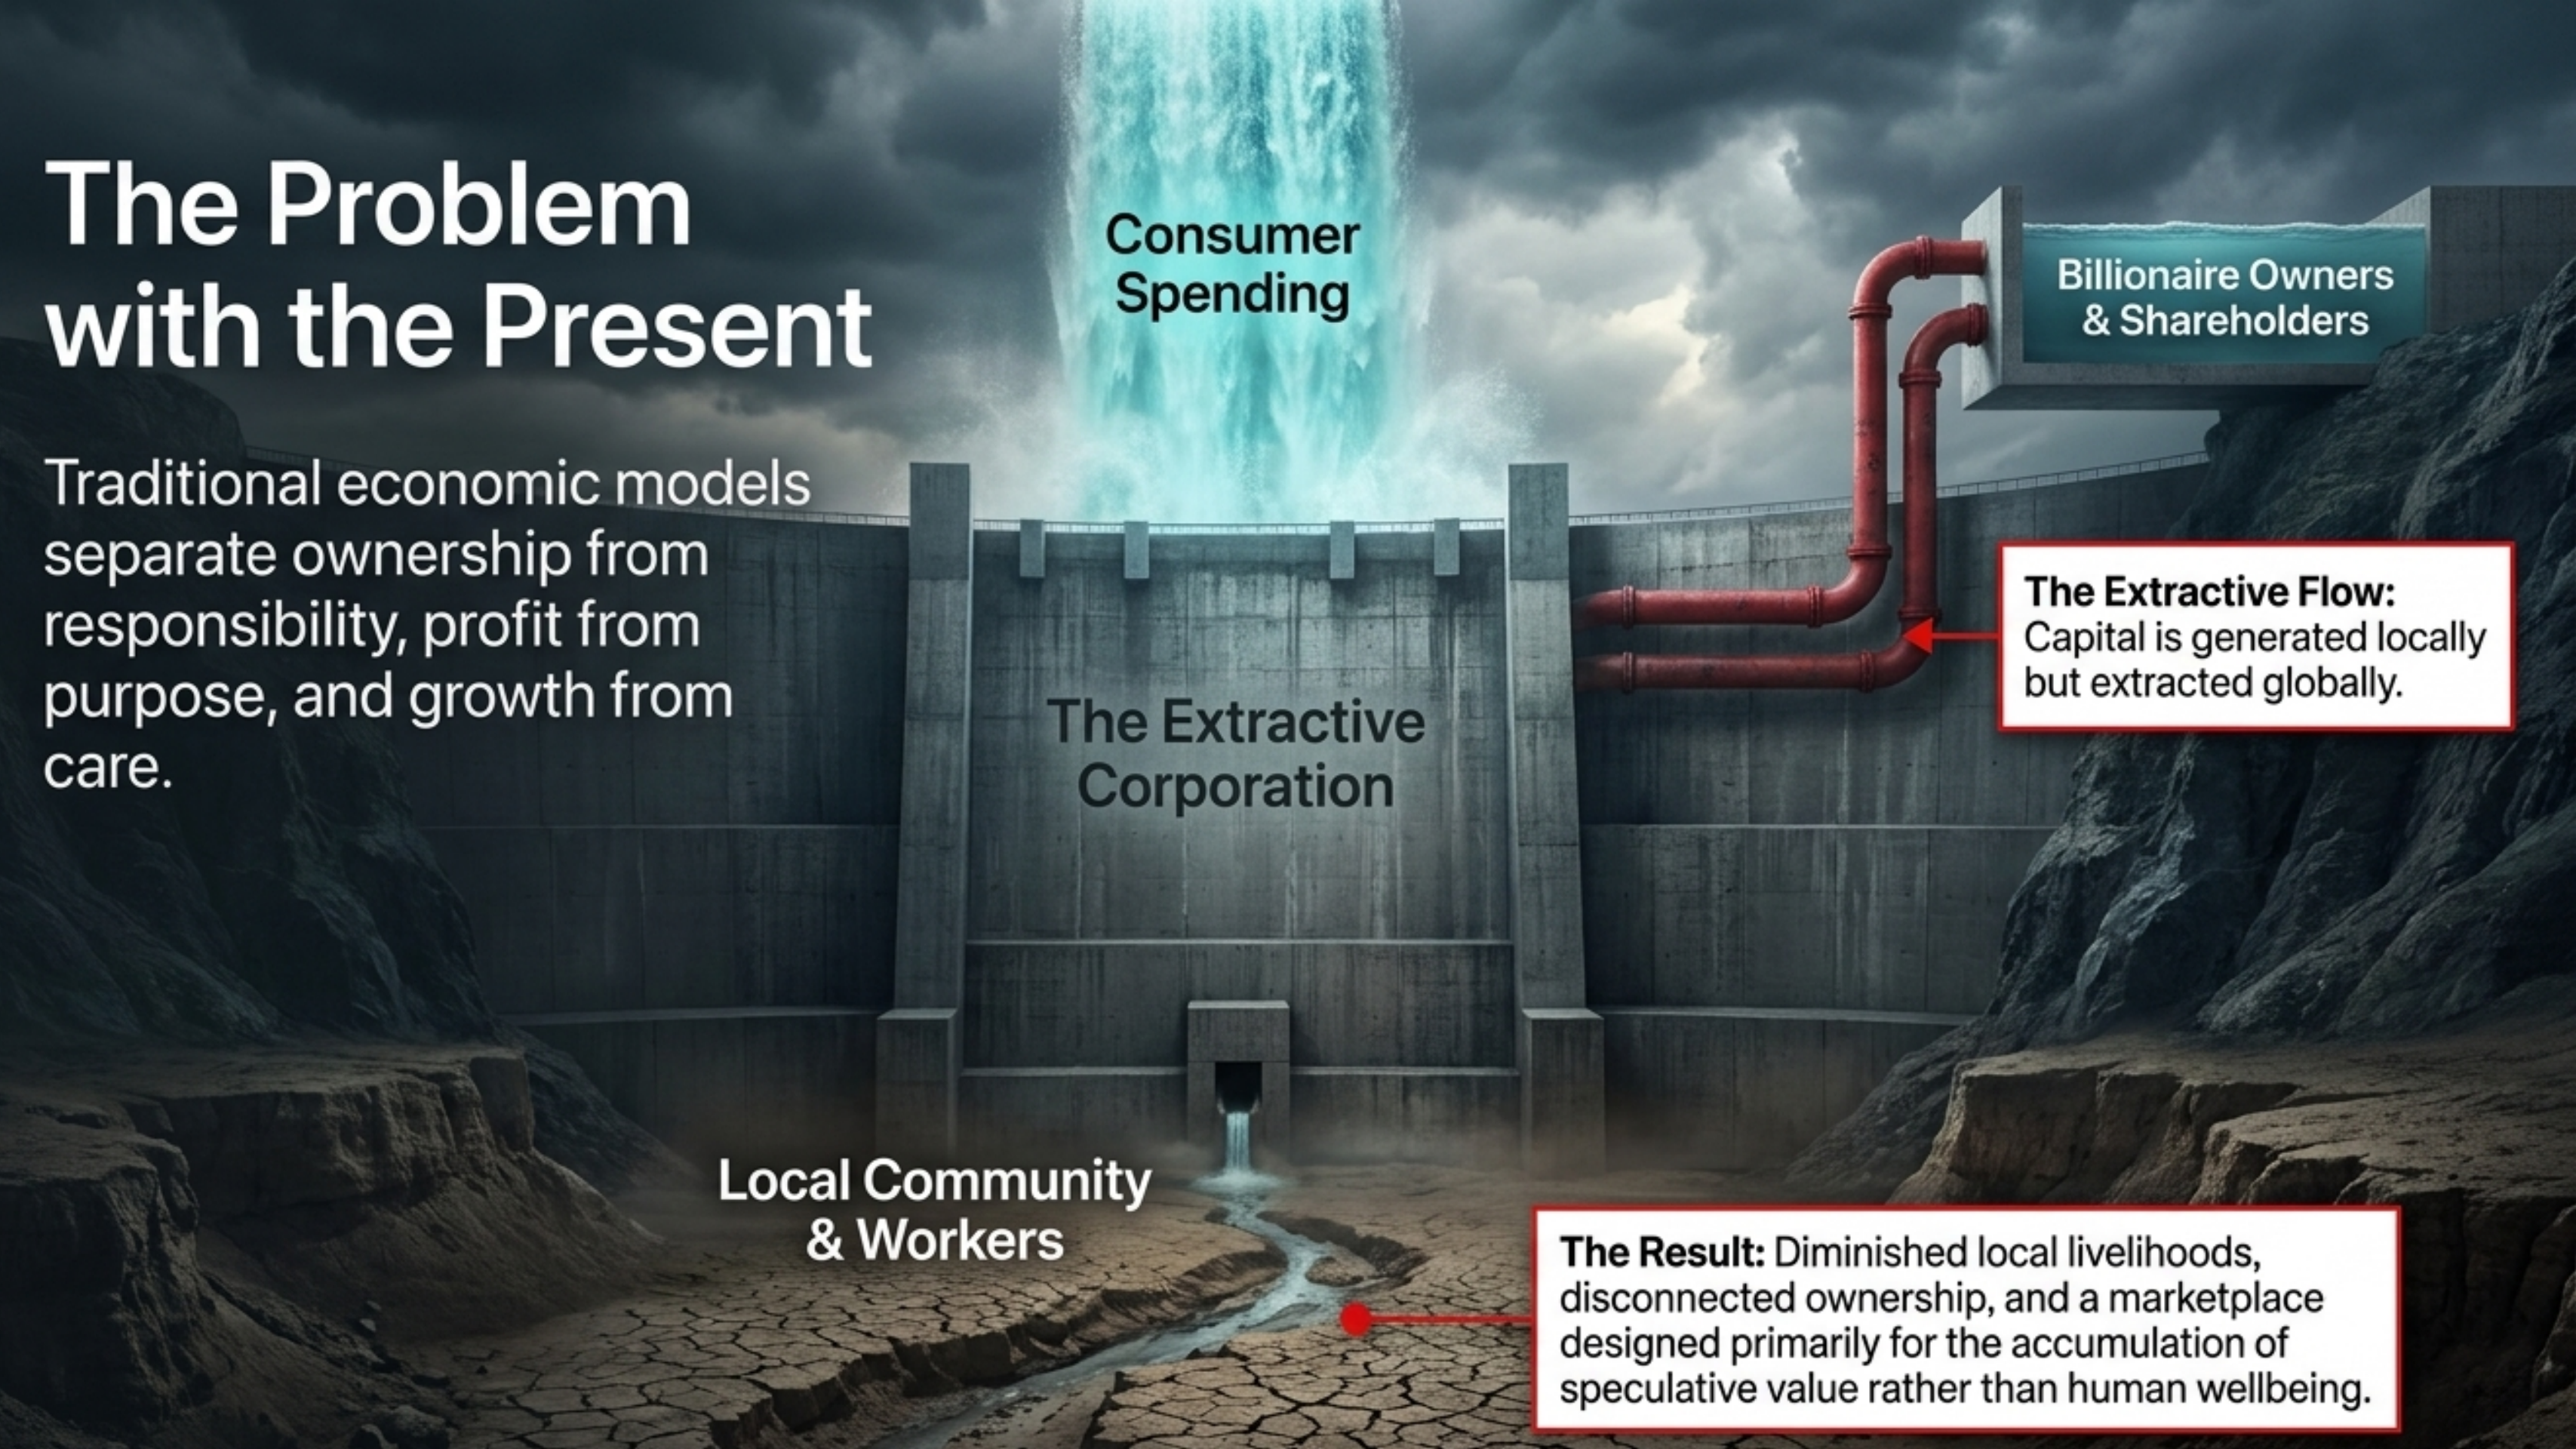

Billionaire Owners & Shareholders

The Extractive Corporation

The Extractive Flow:
Capital is generated locally but extracted globally.

Local Community & Workers

The Result: Diminished local livelihoods, disconnected ownership, and a marketplace designed primarily for the accumulation of speculative value rather than human wellbeing.

The Gateway to the Ecosystem

Participation begins with two simple, mission-aligned contributions that establish your standing in the trust.

The Foundation (\$75)

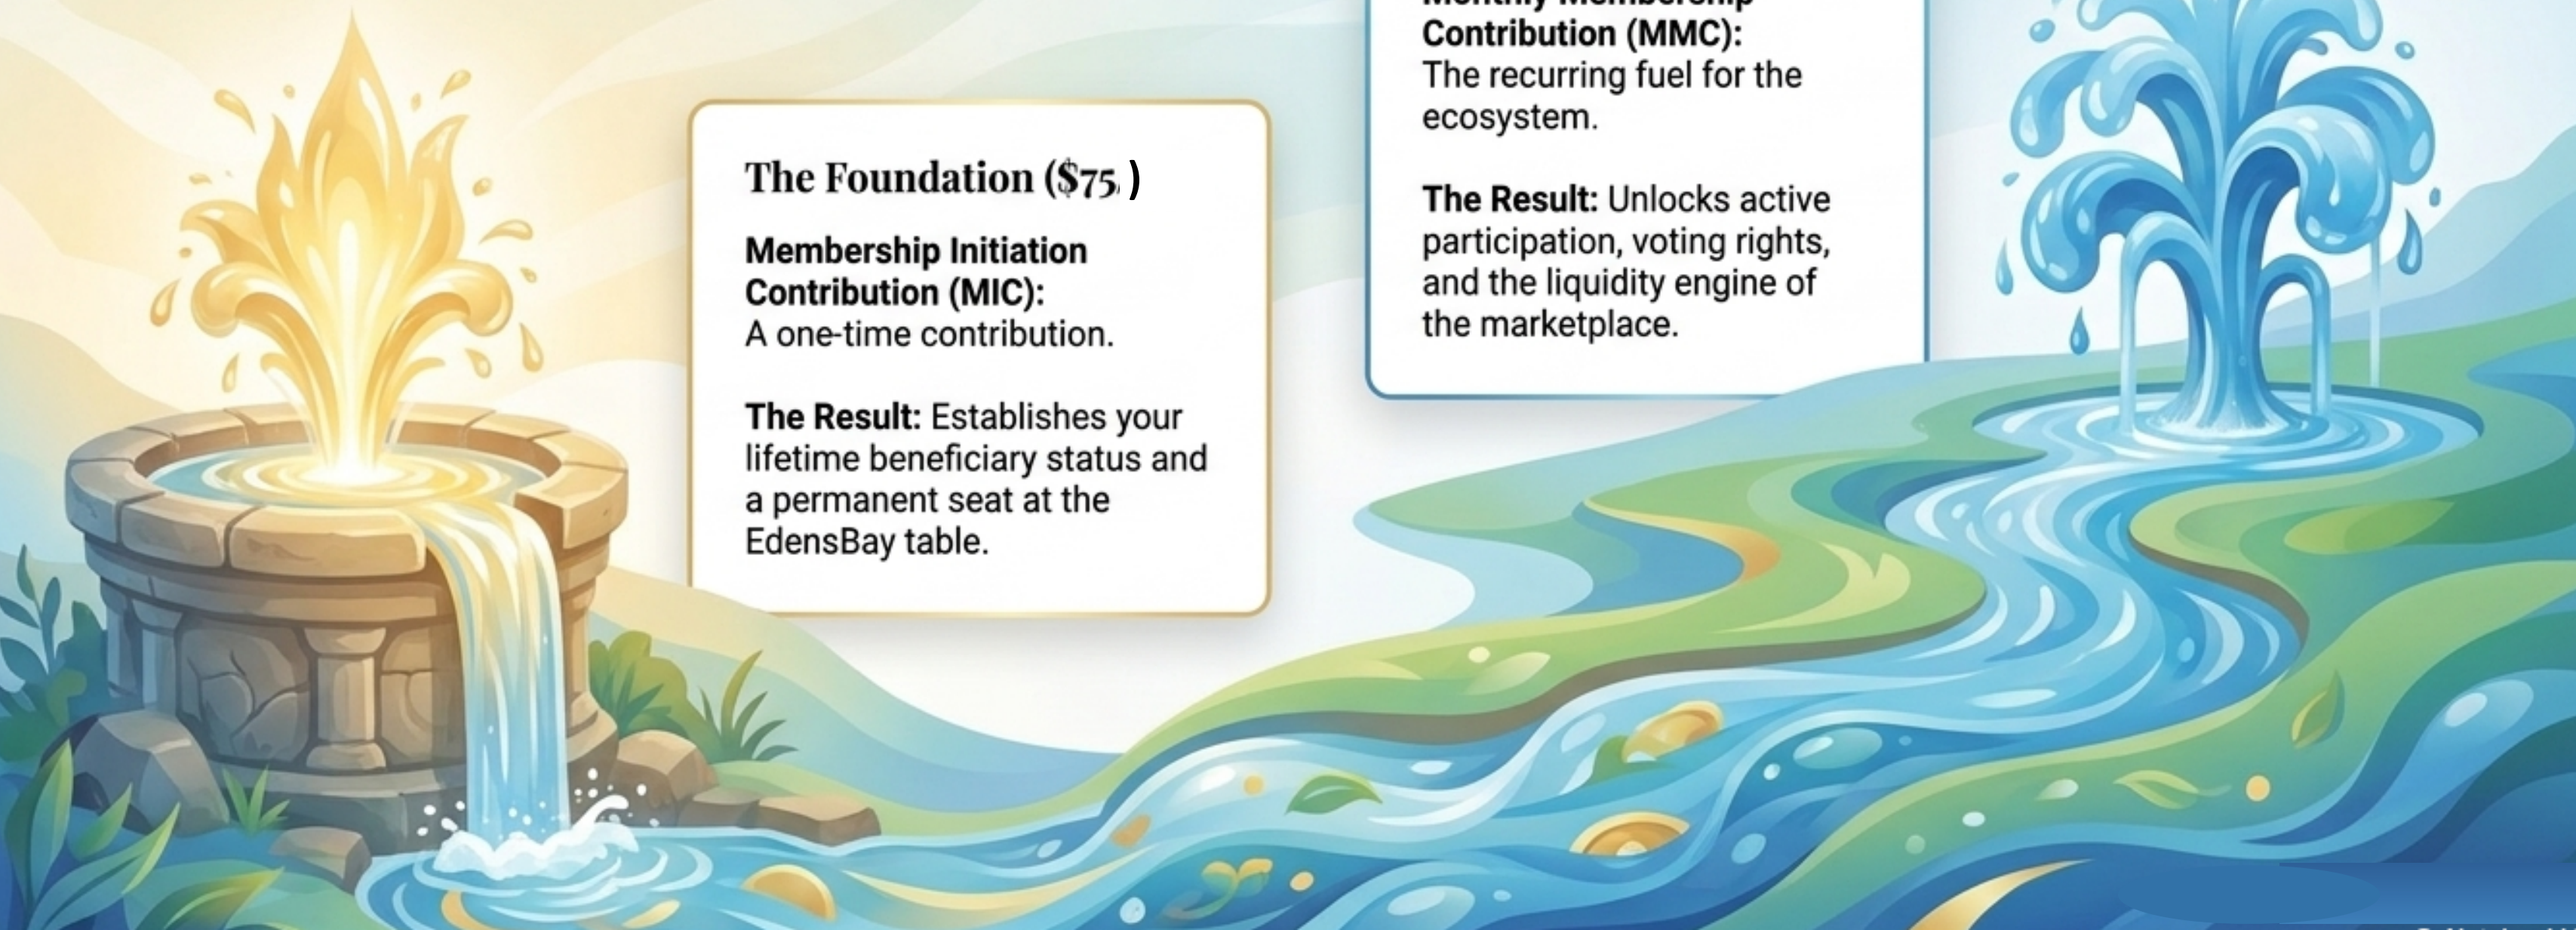

Membership Initiation Contribution (MIC):
A one-time contribution.

The Result: Establishes your lifetime beneficiary status and a permanent seat at the EdensBay table.

The Catalyst (\$35)

Monthly Membership Contribution (MMC):
The recurring fuel for the ecosystem.

The Result: Unlocks active participation, voting rights, and the liquidity engine of the marketplace.

The Anatomy of a Contribution

Your monthly contribution does not go to a corporate bottom line. It routes directly into dedicated trust reservoirs.

Source: \$35
Monthly Membership
Contribution (MMC)

Upper Branch (25%):
The Stewards Trust.

Dedicated to maintaining the operational continuity, administration, and financial stability of the constellation.

Lower Branch (75%):
The Mother Trust.

Dedicated to the recurring delivery and deployment of community capital to enact member-directed purposes.

Ensuring Continuity: The Stewards Trust

The 25% allocated to the Stewards Trust is meticulously divided to ensure the marketplace operates debt-free and securely across generations.

50% — Debt Repayment

A dedicated reservoir to fulfill initial private launch loans and ensure total financial independence. (The basis for systemic confidence).

40% — Administration & Operations

Funds the stewardship labor, scouts, and infrastructure required to run the marketplace.

10% — Trustees

Sustains the stewards acting as guardians of the Charter, preserving the original intent across generations.

Community Capital: The Mother Trust

The 75% allocated to the Mother Trust represents the economic power of the community, deployed directly to regenerate our world without extractive interest.

The Foundation (25% of the Trust)

1. Land

(Regenerative Agriculture and Stewardship)

2. Law

(Protection for Members)

3. Education

(Wisdom Sharing)

4. Wellbeing

(Wellspring Health Initiatives)

The Enactment Pool (75% of the Trust)

Directed entirely by the membership. Debt-free capital ready to be released to regenerative small businesses.

The Liquidity Engine: Allied Coin

Your contribution does two things at once. While your fiat currency capitalizes the community trusts, you are simultaneously issued digital liquidity for private trade.

Fiat Contribution Builds Community Capital Pools

Trusts

The 1:1 Match

Every \$35 Monthly Contribution unlocks exactly 35 Allied Coins.

The Result: You build community capital pools AND retain purchasing power within the marketplace.

Digital Liquidity Retains Purchasing Power

Frictionless, Private Trade

Allied Coin is an internal coordination mechanism, not a speculative crypto asset. It serves as the lifeblood of our localized economy.

1. Frictionless Exchange

Operates like Zelle for immediate, seamless transfers between members.

2. Private Network

All trades using Allied Coin remain private—operating essentially as an inter-office exchange within our employee-owned trust.

3. Compounding Impact

Every fiat dollar exchanged for Allied Coin actively increases the capital pools used to rebuild prosperity and health for our members.

The Power of PEG™: You Direct the Capital

You don't just shop at EdensBay; you act as a sovereign participant directing debt-free capital to the businesses that matter.

4. Capitalize

100% of the Mother Trust's quarterly MMC is released as debt-free capital to the selected business.

3. Vote

The collective membership evaluates and selects projects democratically.

5. Circulate

The thriving business accepts Allied Coin, looping valuable goods back to the members.

1. Identify

A member spots a community need (e.g., a local organic farm or wellness center).

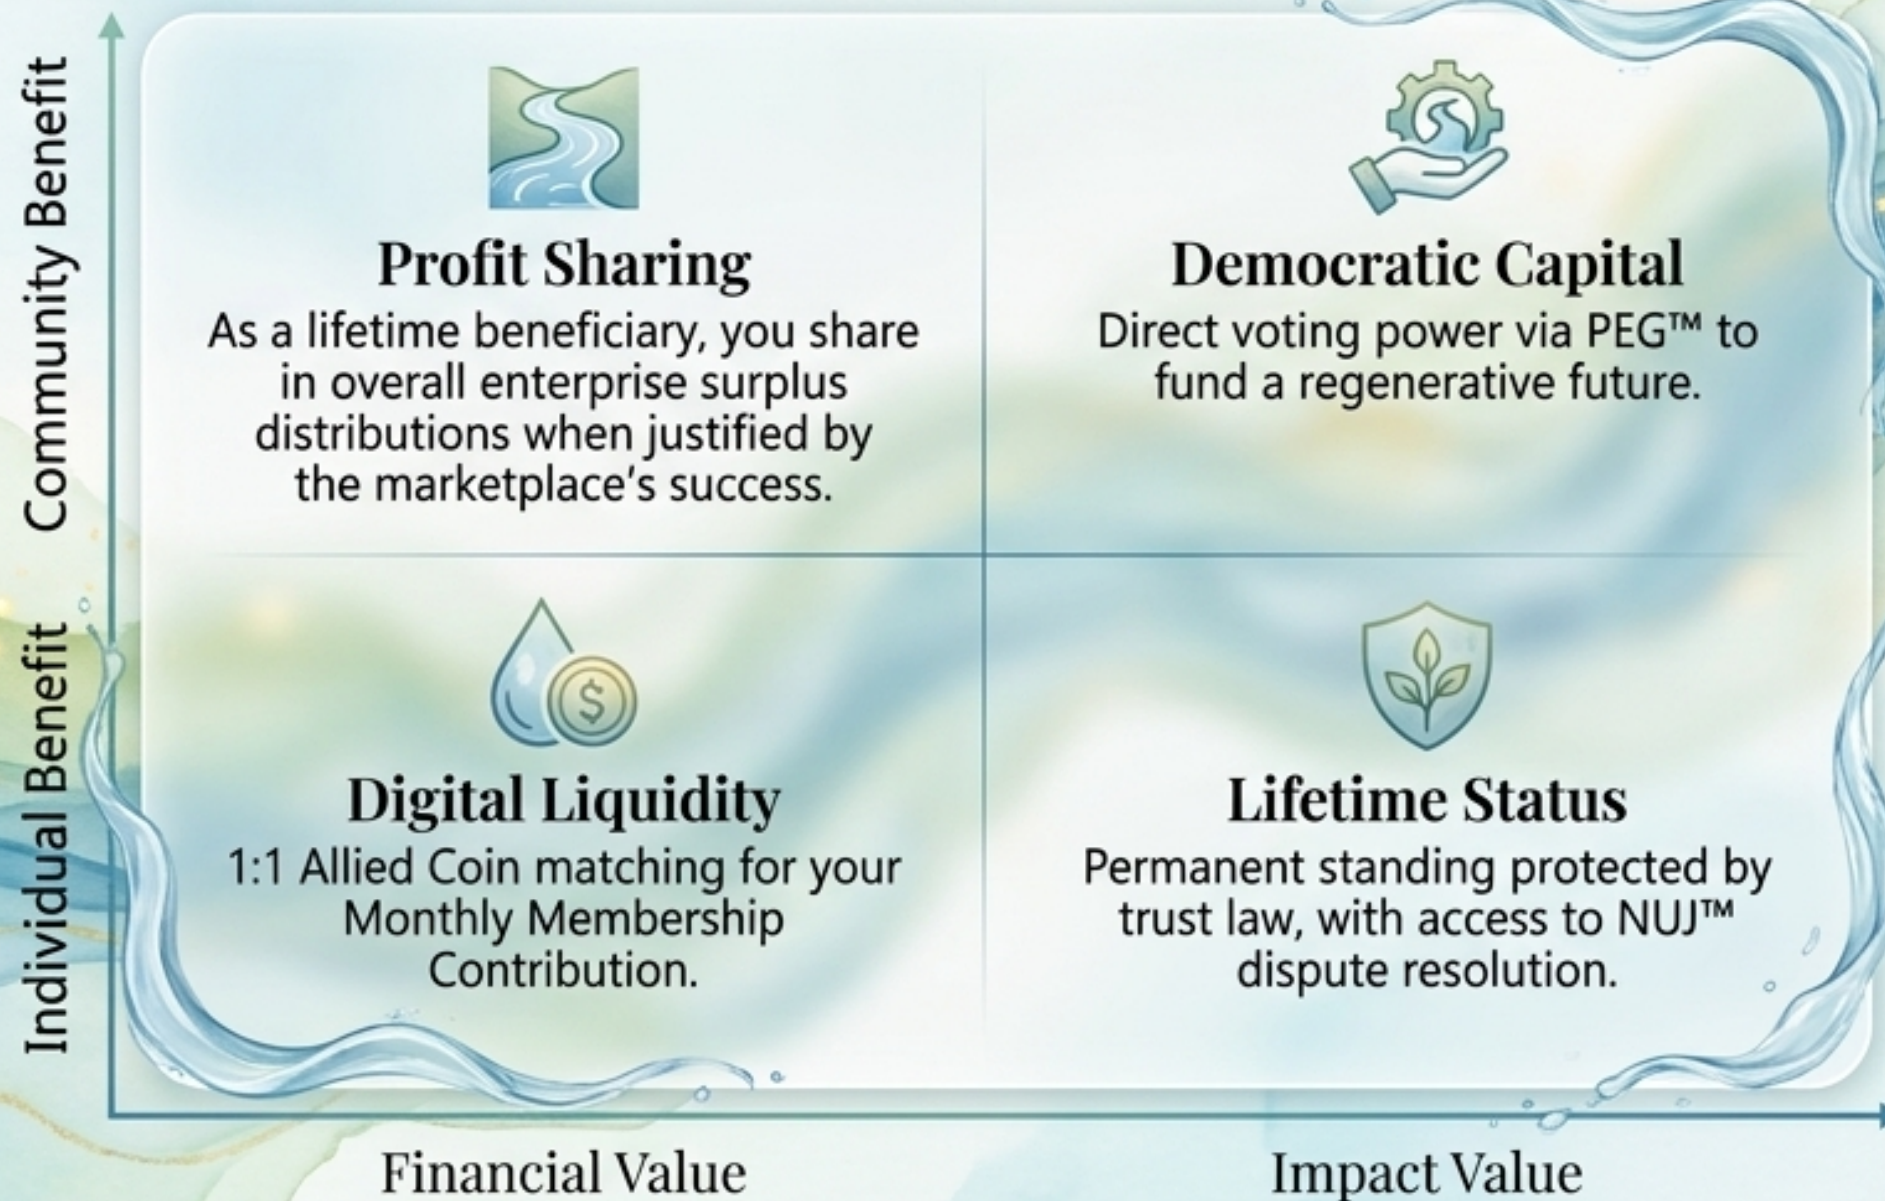

2. Propose

The member utilizes the Proposal Enactment Governance (PEG™) software to introduce the project.

The Beneficiary Advantage: Why Join?

Membership is more than just discounts; it establishes what really counts—a seat at the banquet table.

The Vendor Advantage

EdensBay Marketplace is member-owned and run for private trade of members and general commerce with the public, with members the beneficiaries of overall profit.

Featured Member Video

1. Discounted Commission Rates

Keep more of what you earn compared to standard extractive marketplaces.

2. The Allied Coin Incentive

Receive even greater commission discounts when you choose to accept our frictionless Allied Coin.

3. Elevated Visibility

Promotion of member-vendors to other members and to the public. Access to a highly engaged, values-aligned shopper base and access to debt free capital through PEGtm .

4. Shared Ownership

As a participating member-vendor, you are a beneficiary of the marketplace's overall success.

Synthesis: The Circle of Prosperity

Every element of the EdensBay constellation is designed to work in harmony. Extractive loops are closed. Value generated by the community is held in trust, deployed by the community, and circulated back to the community.

America's Future Belongs to all Americans.

EdensBay belongs to every American who wants integrity.
Become a founding member and help us prepare for our
100,000 member grand opening.
